SURFACES

Patterns immersed in a crystalline world of glass - shiny, opaque, glinting - fascinating also to the touch. Madras[®] technologies applied to flat glass and mirrors transform surfaces with many striking effects not possible in other materials. Hence the advantages and prestige of Madras[®] products for the finishing of furniture and furnishing accessories.

WARM METAL BOOK

KITCHEN

WEAVING IN GLASS

Warm copper glints in an exquisite, functional kitchen.

LIVING

TACTILE PATTERNS

Shiny-opaque contrasting, in a play of non-mirror mirrors.

BEDROOM

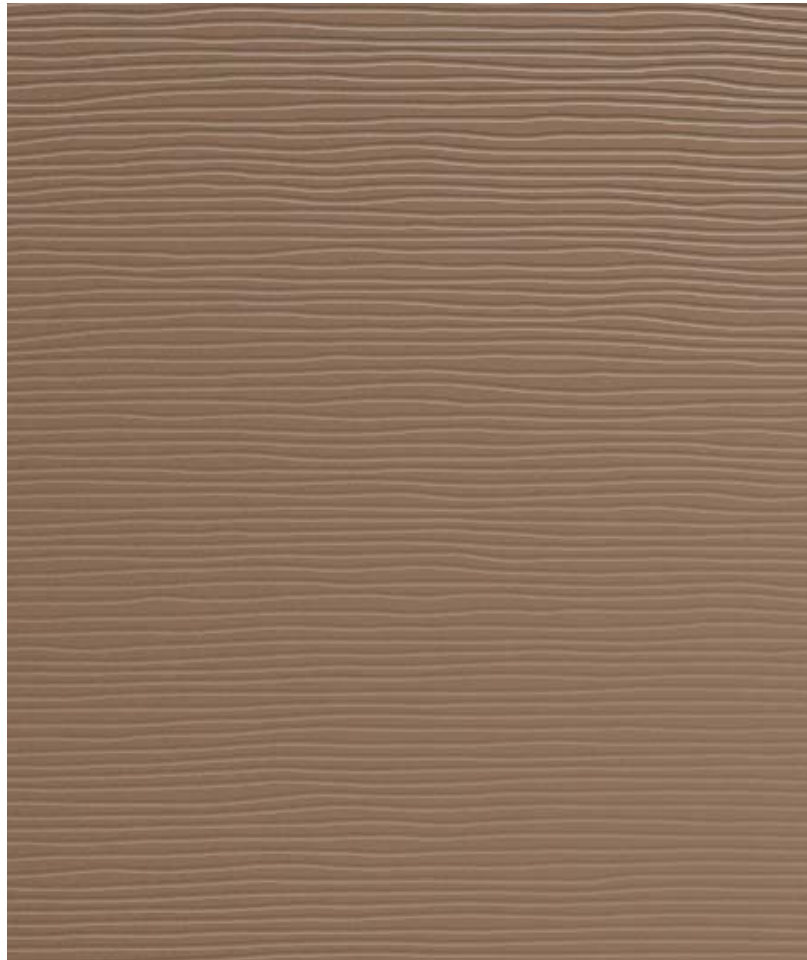

SILK DECOR

Neo-baroque charme for a glass to be caressed.

Warm metal is a range of colours of the moment for dressing the home with reflections both ancient and modern. Madras® expresses their spirit with a variety of new tones, finishes and tactile/visual sensations. Once again, perfect surfaces have been created for the functional design and evocative power of furnishing items.

KITCHEN weaving in glass

Smooth, sparkling surfaces.
Precious textures
protected by the crystallinity
of glass and warmed
by colour.

Stream extra-clear copper laquered

The furniture and furnishing accessories in the photographs are finished with Madras® products from the following lines:

Texture: 4mm extra-clear float base, temperable. Lacquering can be applied (by a transformer) on either the bare float or finished side. Lacquering the float side leaves the tactile effect of the chemical etching visible, whilst lacquering the finished side keeps the brilliance and smoothness of the float visible without diminishing appreciation of the finely etched texture. Slightly metallized paints are recommended for lacquering the finished side of the glass.

Silvered: 4mm silvered ecological float glass base, bronze colour. For full information on how to use silvered glass (gluing, resistance to light and heat, etc.), visit the producers' AGC website www.yourglass.com.

Anti-Scratch: 10mm extra-clear float base, temperable. Its finely textured and brilliantly reflective surface has very high, and certified, resistance to scratches and stains.

Madras® chemical etching is permanent. It doesn't alter the glass's strength but intensifies its tactile and visual properties depending on the surface treatment applied: velvet effect, texturing, brilliance, etc.

For day-to-day care, use a soft cloth (preferably microfibre) with water and/or an ordinary glass detergent.

Vetro Madras® is eco-compatible. It is produced in Italy in full compliance with all the environmental protection regulations.
